REMARKS / ARGUMENTS

In paragraph 1 of the Office Action the Examiner objected to the drawings because the slide 18 was not indicated therein. The reference character 18 was mistakenly omitted from figure 1. A replacement sheet including corrected figure 1 in which reference character 18 has been added is being submitted with this paper. An annotated copy of the originally filed drawing sheet showing the correction is also being filed herewith.

In paragraph 4 of the Office Action the Examiner indicated that: "Claims 4 – 9, 15 and 17 – 19 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2<sup>nd</sup> paragraph, as set forth in this Office action and to include all of the limitations of the base claim and any intervening claim." However, the Examiner did not include such a rejection in the Office Action. Therefore, applicants have taken extra care to identify and correct those errors in the claims that the Examiner intended to use as the basis of such a rejection. For instance when incorporating the limitations of claim 4 into claim 1 it was noted that there was not a proper antecedent basis for "said control feature" in intervening claim 3, and that the "control feature" was first introduced in claim 2, which was not an intervening claim. To correct this problem the limitations of claims 2, 3 and 4 have been added to amended claim 1, so that amended claim 1 is believed to be allowable as being equivalent to the claim 4 that the Examiner indicated would be allowable if proper amendments were to be made.

In claims 7 and 8 there was no antecedent for "said first securing member", so this has been amended to be --said securing member--.

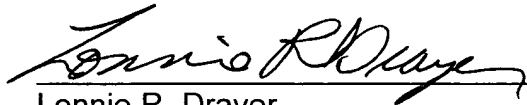

The limitations of claims 14 and 15 have been incorporated into claim 13, which makes amended claim 13 allowable.

Claim 20 has been amended to correct the Examiner's anticipated objections,

including the elimination of the vague term "path of the rail".

It is believed that the application is now in form and condition for allowance and such action by the examiner is respectfully urged.

Respectfully submitted,
